

To whom it may concern:

I wanted to write regarding the National Association of Broadcaster?s recent petition 04-160 seeking to limit the services and offerings of XM Satellite Radio. I am a loyal XM subscriber who pays a monthly fee to enjoy commercial free music, news, traffic, and weather. I do not feel that the NAB should be able to dictate which services I am provided for my monthly fee. I respectfully urge that you reject the NAB?s petition 04-160.

Sincerely,

Tyler Garman
Rogers,
